CARDBOARD PALLET

Reliable and reusable, it is the best solution to reduce logistics costs

- HAKO cardboard pallet doesn't contain any nail or shard.
- As it is lighter than others, it saves transport cost and carbon emissions.
- No need of ISMP15 treatment for overseas (no mould, sponger)
- The base of the pallet is made of honeycomb block cardboard feet associated to a solid sheet of corrugated cardboard. To the set, a sleeve with fold is added on the lower part to become a packaging.
- It is green solution and 100% recyclable at end of life.
- Sold in standard sizes or made to measure. Your logo or a special colour can be added upon request on it and on the sleeve as well.

The pallet are available in standard and specific sizes.

- 800 x 600 mm
- 1 200 x 800 mm
- 1 200 x 1 000 mm
- 1 500 x 1 200 mm
- 1 600 x 1 200 mm

The pallet is proposed with or without sleeve. Provided with folds.

- Available in large dimension range, option with print logo.
- 1 200 x 800 x 1 000 mm
